

**We are small enough to care,
and big enough to deliver.**

This means we can:

Ensure every service user,
family member, and staff
member have the opportuni-
ty to have their voice heard.

Operate quality monitoring
systems which ensure man-
agers in services know what
is happening when support
is delivered.

Train staff based on the be-
spoke needs of each person
they are supporting.

Ensure that all the money we
receive remains in the local
economy and community.
